

City of Norwood Young America
Community Garden Lease Agreement

Name: _____

Address: _____

Phone: _____

Email: _____

The gardener will pay the City of Norwood Young America the sum of \$10.00 per plot (non-refundable) per season for water usage. A plot is currently defined as on a raised bed. It is the responsibility of the gardener to maintain their plot and immediate walking area. This includes the appearance and weeds within plots as well as in the walkways around the plots.

The gardener has the choice to plant vegetables, flowers, and herbs, but no trees or shrubs, and agrees to avoid tall crop plantings where it will shade neighboring gardens. Organic gardening is preferred, but if the gardeners need to chemically treat their plots with chemicals or herbicides, great care must be taken so that any over-spray will not damage other gardens. Please apply herbicide on quiet, wind-free days. The gardener agrees not to use any chemicals in any way that affects neighboring plots.

If the gardener becomes physically unable to maintain their plot for any reason, they must notify the City of Norwood Young America immediately. If the gardener must abandon their site, they must also notify the City of Norwood Young America.

I, the gardener, do hereby agree to this rental agreement.
